The Consortium for Advanced Practice Providers is an organization founded in 2015 to promote the growth and spread of postgraduate NP, PA and joint NP/PA training programs, ensure their rigor and quality, and to advocate nationally for further support and development. The Consortium was founded by national nursing and physician associate/assistant leaders to serve as the accreditation, advocacy, education and membership organization of the postgraduate NP and NP/PA training movement.

The Consortium is hosting our annual conference in Denver, CO. The Consortium has increased the attendee capacity, and conference offerings. The Annual Conference is designed to bring together a community of 250+ innovators, leaders, and emerging leaders in leading and developing formal postgraduate programs as well as a cadre of tomorrow's leaders (today's NP/PA trainees and students) to learn from each other, but also from external stakeholders and experts in healthcare systems and policy.

This conference is an opportunity for a relatively short but intense burst of continuing education in evolving best practices in APP postgraduate training, strategies for the planning, implementation, and success of service-delivery based postgraduate training, anticipated relevant future policy developments, and health care trends related to the movement. Breakout sessions will provide opportunity for specialized focus on critical elements of curriculum, evaluation, faculty development and accreditation.
