

CONSORTIUM

FOR ADVANCED PRACTICE PROVIDERS

Setting the standard for postgraduate training

2026 Annual Conference
Monday–Tuesday, **July 13–14, 2026**

Thank you to our Conference Exhibitors!

Please be sure to visit our Exhibitors in the foyer.

www.chestnet.org

The **American College of Chest Physicians (CHEST)** is the global leader in advancing best patient outcomes through innovative chest medicine education, clinical research, and team-based care.

<https://www.cadfy.org>

Community Alliances for Drug Free Youth (CADFY) is a not-for-profit 501c3 drug prevention organization that works at the state, national and international levels to promote sound drug policies that target illicit drug use and related problems, promote research-based prevention strategies and programs and creative initiatives working in collaboration with individuals, agencies and organizations to bring parents, youth and schools together to build and promote safe and healthy communities.

www.ConferMED.com

Developed by practicing primary care providers, **ConferMED** is a national network of specialists providing eConsults and other telehealth services to providers across the country. ConferMED has strong roots in primary care given its unique history of being incubated within a large Federally Qualified Health Center (FQHC). ConferMED provides high-quality, specialty eConsults, within days of the request through a primary care practice's existing specialty referral process. ConferMED provides access to all major adult and pediatric subspecialties.

www.chroniccarestaffing.com

Chronic Care Staffing, LLC is headquartered in Charleston, South Carolina with clients across the United States. Since 2015, CCS has worked with health systems and practices of all sizes with an industry leading clinical approach to patient health management. Our programs are designed to optimize care for patients while generating revenue for our clients. CCS was one of the first outsourced providers of Chronic Care Management services, and we have since expanded our offerings to include Remote Patient Monitoring (RPM), Health Risk Assessments (HRA) for Annual Wellness Visits (AWVs), Transitional Care Management (TCM), Virtual Clinical Staff Augmentation, as well as other virtual care management services. We take a long-term partnership approach with our clients and are flexible to develop programs to meet our clients' needs.

www.nimaa.edu

The **National Institute for Medical Assistant Advancement (NIMAA)** is a nationally accredited medical assistant training institution, founded by two leading Federally Qualified Health Centers to address the demand for high-performing MAs that are better prepared to meet the needs of primary care organizations today. NIMAA's 8-month program allows students to participate in online learning with a concurrent externship, starting day one of the program through to graduation. As students learn skills in the curriculum, they have the opportunity to immediately observe and practice the skills in clinic, building muscle memory and confidence simultaneously. Our model allows your organization the opportunity to grow your own workforce with the structure of an accredited, non-profit program. This creates a pipeline of well-qualified MA graduates that understand your mission, patient population, environment, and are ready to hit the ground running as employees.

(Continued from reverse side)

The Primary Source for Primary Care

www.pri-med.com

Pri-Med is the trusted source for more than 200,000 U.S. clinicians, offering the most comprehensive and relevant primary care CME/CE through renowned medical institutions and faculty. From live, in-person, and virtual conferences to a dynamic on-demand digital library, our education is refreshed annually and tailored to meet clinicians' evolving needs.

www.soniqueuse.com

Soniqueuse is a 4.0 MHz radiosurgical platform that combines precision cutting and coagulation into a single, easy-to-use system. From everyday lesion removal to cosmetic procedures (such as Telangiectasia) and soft-tissue contouring, Soniqueuse helps providers treat a wide range of conditions with precision, control, and minimal thermal damage.

Common Applications:

- Skin tags
- Cherry angiomas
- Sebaceous hyperplasia
- Telangiectasia
- Seborrheic keratoses
- Warts
- Benign lesion removal
- Soft-tissue contouring

www.thriveap.com

ThriveAP utilizes faculty-led immersive educational programming to elevate the confidence, competence and retention of the healthcare team, leading to increased productivity and access to care.

<https://www.bridgeport.edu/academics/programs/chiropractic-dc/>

The University of Bridgeport School of Chiropractic integrates chiropractic specialty services into Federally Qualified Health Centers since 2012. Community Health Centers report a very high satisfaction rate by both patients and primary care providers.

Chiropractic specialists provide evidence-based and patient-centered treatment of patients with both acute and chronic pain.
